STRIPPING DISCS

STRIP DISC

CLEAN WELD RUST & PAINT

DESCRIPTION:

- Ideal for cleaning corrosion rust, scale, paint
- Thin width gets into tight corners for complete cleaning, stripping, and surface prep
- Provides greater surface area than wire brushes
- Extra coarse grade silicon carbide provides aggressive cutting and leaves a finish than wire brushes
- Load and heat resistance offers prolonged operation and consistent finishing results throughout disc life
- Smear resistant, non-woven web material provides uniform wear over the life of the disc
- Open hole and fitting design

PACKAGED	PART NUMBER	BRAND	DESCRIPTION
STRIP DISC			
SINGLE	A1204	Centurian	STRIP DISC 178mm x 13mm
SINGLE	A1204B	Centurian	STRIP SHAFT 8mm x M12

STRIP FLAPPER

CLEAN WELD AND RUST

DESCRIPTION:

- Stiff fiber backing thus allowing it to be used on angle grinders.

PACKAGED	PART NUMBER	BRAND	DESCRIPTION
STRIP FLAPPER			
SINGLE	A1201	Centurian	STRIP FLAPPER 100mm x 16mm
SINGLE	A1202	Centurian	STRIP FLAPPER 127mm x 22mm
SINGLE	A1203	Centurian	STRIP FLAPPER 178mm x 22mm

FLAPPER

ZIRCONIA

FLAPPER DISC PREMIUM RANGE -ALL METALS

DESCRIPTION:

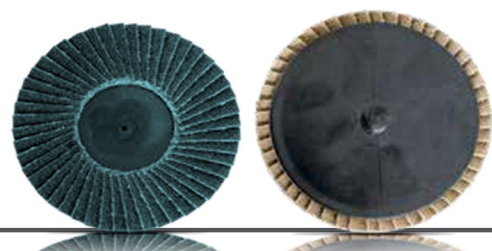

- Premium Zirconia Flapper
- High performance on heavy metal and stainless steel work
- Longer life and faster cut performance

PACKAGED	PART NUMBER	BRAND	DESCRIPTION
100MM FLAPPER			
20 PIECES	GF10040G-20	GermaTech	Flapper 4 " P40 20PCS

50 PIECE	AF104-50	GermaTech	Rolock Flapper 2" - 50PCS

ZIRCONIA BELTS

STAINLESS STEEL

DESCRIPTION:

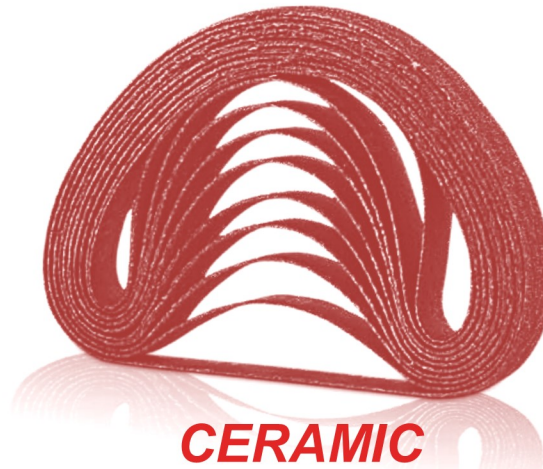

This zirconia aluminium abrasive grain is designed for increased cutting efficiency and is backed with a heavy, water-resistant polyester backing which will withstand fast speeds and high-pressure applications

The durable backing ensures long life and supports both wet and dry operations.

Suitable for high carbon, alloy steel and stainless steel.

PACKAGED	PART NUMBER	BRAND	DESCRIPTION
ZIRCONIA BELT 330 MM			
10 PIECES	A804-40-10	GermaTech	Belt Zirconia Green 330-40

50 PIECES	A806-60-50	GermaTech	Belt Zirconia Green 915-60

CERAMIC BELTS STAINLESS STEEL

DESCRIPTION:

This high performance ceramic coated belt provides durability and cutting efficiency

The heavyweight cloth backing supports high-pressure applications, works well on heat-sensitive metals, and can be used in wet or dry applications.

Ceramic abrasive grain is designed for a harder, longer-lasting abrasive engineered to cut fast and handle intense heat and stress applications.

PACKAGED	PART NUMBER	BRAND	DESCRIPTION

SURFACE CONDITIONING BELTS

SANDING AND FINISHING

DESCRIPTION:

This conditioning belt is a durable belt, engineered to perform detailed work such as blending, blending corners, cleaning, contour finishing, deburring, deburring edges, fine finishing, flat finishing, setting the grain, stainless steel finishing, and attaining straight-line brushed finishes on a variety of metals.

Conditioning belts are ideal for removing coarse grind-lines, mill marks, or small burrs left by cutting tools or conventional abrasives.

Works on numerous surfaces including wood, stainless steel, aluminium, titanium, non-ferrous alloys, fibreglass and plastic
